

Scots pines water use dynamics under different wetness conditions: ecohydrological and isotopic insight

Loujain Alharfouch^{1*}, Pilar Llorens¹, Jesus Ariel Castro-López¹, Juan J. Hidalgo¹, Francesc Gallart¹, and Jérôme Latron¹

Field monitoring set up (May to October 2022)

- Ecohydrological data (5 min)
- Weekly samples ($\delta^2\text{H}$, $\delta^{18}\text{O}$) (July to October)

Observations:
